Del desarrollador: VeryAndroid SMS Backup is the first smart software to back up and control Android SMS. It can copy and back up sms on your Android phone to your computer, restore a backup sms file to any Android phone, and send messages or communicate with a friend on your computer directly, just like you do on your Android phone. quiz este interesado en probar otros programas, Como ShadowProtect desktop computer, SmartSync Pro o EasyRecovery DataRecovery, que podran ser analogues PC Tool for VeryAndroid SMS backup. Informaci'n actualizada el: February 28, 2017 Download Now Safe Download Download.com decided not to provide a direct download link for this product and offers this page only for informational purposes. Unfortunately, the ability to back up text message storage is not built into synchronization software on Android devices. VeryAndroid SMS Backup offers a very effective solution to this problem: users download the app to their mobile device and a separate manager tool on their computer. The result is a large SMS management system. Setting up for a VeryAndroid SMS backup takes very little time, but it requires pc software installation and brief registration. The app itself is quite simple. The intuitive main screen has only a few buttons with features such as backup, recovery, and synchronization. The tool on the PC, however, more features are filled. The user can search for specific messages and organize messages in several different ways. The layout of both programs is clean, well thought out and appropriate for most users. The Android version of this app is stable and functions perfectly. This app is free to try, but the full version costs \$19.99. The developer offers lifetime free upgrades, however. This program can be useful for people who want to save their messages or get information that someone has sent in the past. Most devices have a limited number of messages that they can hold and they remove the old ones as they become obsolete. Another group that will find this app useful are people who often change their phones, as VeryAndroid SMS Backup offers easy messaging between devices.
